***Monday, July 24, at 5 p.m.
Hyatt Regency Ballroom E***

The Council on Food, Agricultural and Resource Economics (C-FARE) has agreed to conduct a comprehensive and independent review of the Census of Agriculture. USDA/NASS conducts the Census of all agricultural operations every five years.

How do you use the Census of Agriculture? Do you have questions about how the Census is conducted? Do you have suggestions or concerns about Census coverage or methodology? If Census data are important to you, please plan to come to this special session.

If you're a direct user or an indirect user of the Census of Agriculture, please share your ideas and concerns with the Review Committee. They will be on hand to get your input on every aspect of the Census...its content, coverage, methodology, products, and more.

Don't miss your chance to contribute to this review, now underway through C-FARE. Attend this special open session.
